## **Verification Update**

NSLP 08-11-"As amended by the Act, Section 9(d)(1) now requires that only the last four digits of the SSN (social security number) must be provided on the application. The Act also removes the requirement that the SSN of each household member be collected to verify applications. The new requirements increase privacy protections. This became effective October 1, 2010 and household applications and supporting materials must be updated to reflect these changes no later than July 1, 2011.

Current year state agency forms and templates have been updated to reflect these changes.

(SP 19-2011, CACFP 09-2011, SFSP 06-2011)

Video Notes: SSN are referred to in the following presentations.

Verification Basic 3% (slides 10 & 11)

Verification Alternate 3% (slides 11-12)

Verification 1% (slide 10)
